Follow the latest Reposit news and updates via Facebook and Twitter.

Repositpower.com

Take the first step.

Reposit First monitors your energy usage to help assess if batteries are right for you.

Reposit's advanced software learns when you use energy and how much.

Start your energy storage journey at a fraction of the cost with Reposit First.

Reposit First combines simple visual displays with high accuracy metering all for no ongoing monthly costs. Simply add a compatible battery to earn GridCredits™*.
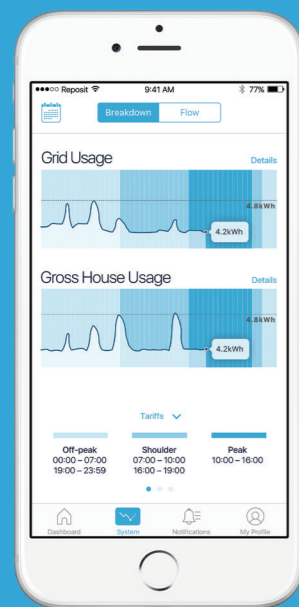

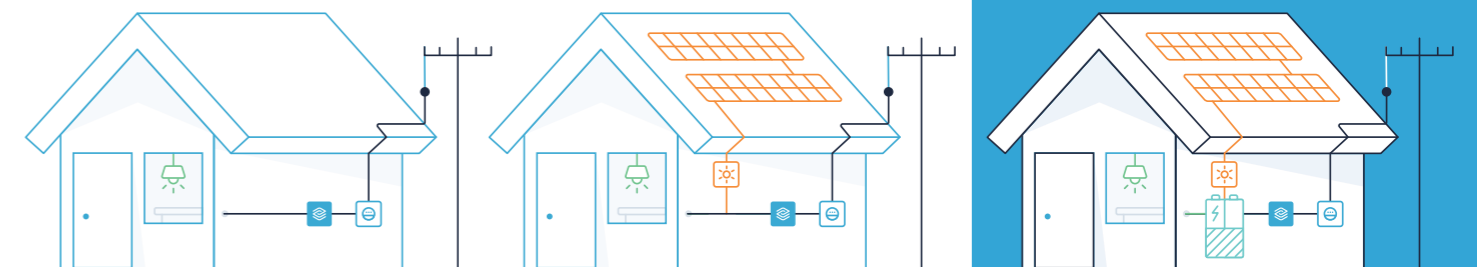

Actual size

Compatibility
